

Framed & Unframed Works Gallery Hanging guidelines

It is a requirement of all hung works that they are prepared for hanging within the Cardwell Gallery and exhibition areas in the following manner:

1. All framed hung works must be clean, paint must be dry and frames must be in sound condition and ready for sale. Stretched canvas is considered framed. All works should be ready to hang from flat mounting D rings and a taut framing cord or framers wire fixed (ideally) 1/3rd of the way down the frame for hanging.

NB eye rings damage walls so please use D-rings – very light weight works may use staple fixings – if in doubt please ask.
